*By* JEFFREY BROADBOTTOM, *of* Covent-Garden, *Esq*;

SATURDAY, SEPTEMBER 28, 1745. [N°. 128.]

*To the* AUTHOR,

*SIR,* *London, Sept.* 24, 1745.

SOME Years since, in a Paper call'd the *Champion*, I publish'd a short Account of the *British* Possessions in *North-America*, which, I flatter myself, met with general Approbation; and, notwithstanding, from the Nature of the Subject, I was oblig'd to take some Liberties with a Minister then in the Zenith and Plenitude of Power, and his fraternal Associate, sole Dispenser of good and evil in his Majesty's *American* Dominions, yet the *Gazetteer* Legion, in full Pay at that Time, either thro' an unusual Deference to Truth, or a Despair of justifying the Conduct of their Patron, were pleas'd to give it the Sanction of Authority by not being either able or willing to afford it any Answer. I beg Leave to assure you, Sir, that the only Motives which induced me to write upon Public Affairs, were a sincere Desire to serve my King and Country, and detect wicked Men in the Abuse of that Power their good and gracious Master had entrusted them with; and that I had no Manner of Encouragement from any Person in the Opposition: Measures, not Men, were the Object of my Animadversions, and the Interest of this Nation will ever be the North Star to which my Pen will point.

I presume that the Conquest of *Cape Breton*, and the Acquisition of *Ruatan*, fill the Hearts and Minds of every loyal *Briton* with Joy and Satisfaction; and from whence I conclude, that a brief Description of them, with a View of the immense Advantages and Profits that will accrue to the *British* Subjects by the Possession of these Islands, will be no disagreeable Entertainment to your Readers.

*Cape Breton*, commonly call'd in *France* the *Royal Island*, was not inhabited 'till after the Peace of *Utrecht*: By that Treaty the King of *France* was permitted to take Possession, and fortify it as he thought proper. Soon after, a Town was laid out (*Louisbourg*) and Fortifications erected, with Forts and Batteries for Defence of both Town and Harbour, which, it is reported, cost the *French* Two Millions Sterling. That Harbour is very safe and commodious; there are other Harbours and Bays, which, when the Island is peopled, may be of Use to those concerned in the Fishery, and Sea-faring Men.

The Soil is not fruitful, being better suited to Pasturage than Corn. I have heard the Island has an inexhaustible Stock of Coals, which may be very serviceable hereafter when Wood is not to be had near at Hand; and is as well situated for taking and curing Cod Fish as any Part of *Newfoundland*.

Mr. *Auchmuty*, Judge of the Court of Admiralty in *Boston*, set forth in a Writing (lately printed) delivered to the Duke of *Newcastle* and the Earl of *Granville* about Eighteen Months since, that the *French* had for many Years employ'd a thousand Sail of Vessels, with Twenty Thousand Sailors and Fishermen on the Cod Fishery, and that the Fish they caught annually, was worth Two Millions Sterling. In Respect to Trade, it was of vast Importance to *France*, all the *French* Settlements on and this Side *Canada* (or *Quebeck*) River, sent small Vessels freighted with Furs, Skins, Hides, Provisions, Grain, Lumber, &c. to *Louisbourg*, which from thence were sent to *France* and the *French* Sugar Islands, and there supply'd themselves with Wine, Brandy, Salt, Woollens, Linnens, &c. at and from *Louisbourg*; the *Indians* and *French*, settled in *Nova Scotia*, were furnished with what they had Occasion for of the Manufactures and Produce of *France*; moreover, a great Smuggling Trade was carried on by the Fishing Vessels, much to the Advantage of the *French*. At *Cape Breton*, the *French* homeward-bound Vessels from *Mississippi* and their Sugar-Islands might safely go into Harbour to repair Damages befallen at Sea, or, in case of Necessity, to victual, wood, and water, or take in Men to sail their Ships to *France* if they wanted Hands. There their *East-Indiamen* returning might meet, or wait for Convoy, as they did last Year. By the glorious and fortunate Conquest of this important Island, the Navigation to and from *New France* (the *French* give that Name to their Settlements on *Quebeck* River) will be greatly obstructed, if not totally ruined; That of our Northern Colonies secured; the Cod Fishery in a Manner become wholly our own again, which will constantly breed great Numbers of stout and hardy Sailors to mann the Royal Navy of *Great Britain*; *Nova Scotia* may be now settled with Safety to Inhabitants; *France* is deprived of the Nursery that bred her Sailors for Men of War, Merchantmen, and Privateers, nor has she, at this Time, one Harbour from *Brest* to *Mississippi*: Upon the whole, it may be esteemed a modest Calculation, that *France* is dammified Two Millions Sterling Yearly by the Loss of that Island, and as modest a Computation, that the Subjects of *Britain* will be benefitted One Million by the Acquisition.

I now proceed to *Ruatan*, than which there is not an Island in the South Parts of *America* (*Jamaica* excepted) that may be rendered of more Profit and Advantage to *Great-Britain*: It is situated in the Bay of *Honduras*; the Sea abounds with great Variety and Plenty of excellent Fish; the Soil by Cultivation not only proper for producing Provision, but Cocoa, and many other valuable Commodities. This Island is thought to be healthier than any Place in *America* so far South, is very near *Guatimala* and *Nicaragua*, whose Inhabitants are very rich, and will, for their own Advantage, be desirous of Commerce with *Ruatan* when settled, because they might, at all Times of the Year, from thence be supply'd with *European* Merchandize at much cheaper Rates than from *Old Spain*. *Guatimala*, *Nicaragua*, and the adjoining *Spanish* Provinces, produce vast Quantities of Gold and Silver; the *Spaniards* used to send one annual Register Ship to a City call'd *Truicello* to bring it home: The Productions of the before-mentioned Provinces are the best Sort of Indigo, Balsam of *Peru*, Cochineal, Cocoa, Amotta, *Nicaragua* Wood (of great Value) used in dying Scarlets, Logwood, &c. Certainly there is no Place so conveniently situated to furnish the *Spaniards* in that Part of *America* with *European* Goods as *Ruatan* will be when settled, and a Civil Government appointed; there is one of the most commodious Harbours in all *America*, which may soon be so fortified as to render the Efforts of Enemies against it insignificant and vain. The *Mosquito Indians*, who live on the South Side the Bay, will be very useful, having an implacable Enmity to the *Spaniards* and sincere Esteem and Love for the *English*; they will arm themselves, and go with us to attack the *Spaniards* as often as required, and, by Way of Traffic, exchange Deer-Skins, Tortoise-Shells, and Provision, for Arms, Ammunition, and Cloathing. It may be farther alledged, that, in Time of War with *France* and *Spain*, no Place is so well situated to annoy and intercept their Commerce in that Part of *America*; a competent Number of the King's Ships and Privateers sailing between *Jamaica* and *Ruatan*, will put a Stop to the Trade and Intercourse usually carried on from *La Vera Crux*, the *Havanna*, and *Mississippi*, and prevent Register Ships from carrying Gold and Silver, or the King of *Spain*'s Indulto from *Guatimala* to the *Havanna*: By establishing a Civil Government for *Ruatan*, and the other Islands in the Bay of *Honduras*, the Logwood Cutters will be secur'd from the Insults and Robberies of *Spaniards* and Pirates; by granting the Lands at moderate Quit-Rents the Charge of Government will be defray'd and supported in a few Years, and the Crown be at no other Expence than fortifying the Harbour, and paying a small Garrison.

Having given this short Account of the Settlements we have already happily subdued, a Prospect of those which, it is hoped, will soon share the same Fate, may, perhaps, afford no disagreeable Landskip; for who, when he considers the vast Extent, Situation, Climates, and Productions of the *French* Settlements on the *Mississippi* and *Canada* Rivers, but wishes the present War may put us in Possession of them, especially as two Years can effectually do this by sending Five Thousand Soldiers from *England* to join a competent Number of Men rais'd in the *British* Colonies. ——This is a War that would engage the Heart as well as Hand of every *Briton*, would add true Splendor to the Crown, and, at the same Time, shower down the Blessings of Plenty on the People: By this Means we should dispossess a rival Nation of its favourite *Canaan*, and divert to our own Use those political Streams of Milk and Honey (Wealth and Power,) by which our Enemy is chiefly nourished and supported.

*New France* then, is a Country of prodigious Extent, which includes all the Lands on both Sides *Canada*, or *Quebeck* River. The *French* began to settle there in the Reign of *Francis* the First: They have erected a considerable Number of small Forts at proper Places on the River and Lakes for their Security in trading with the *Indians*. *Quebeck* and *Mont-Royal*, the principal Towns, are tolerably well fortified, the Space between them (about Fifty Miles) is the best settled and improved. The Soil, in general, is barren from the Sea to *Quebeck*, but there, and in an infinite Number of Places above *Mont-Royal*, very rich and fruitful. The Inhabitants have Grain, Beef, Pork, &c. for their own Use, and some to supply the *French* Sugar Islands; they have all Materials necessary for Ship-building. Men of War to carry 70 Guns have been completely finished at *Quebeck*, for the King of *France*. It is thought the Climate and Soil, in many Places, are as proper for producing Hemp and Flax as any in *Europe*; but the greatest Profit that has hitherto accrued to *France*, by this Colony, arose from Skins and Furs, which have been sent to *Europe* in great Quantities. The Heads of this River are not discovered; its Course is nearly from West to East: One Branch is said to be within Twelve Miles of a Water that runs into the *Mississippi*, which may be suppos'd Two Thousand Miles from the Place where it meets the Sea in the Bay or Gulph of *St. Lawrence*. A Body of *Frenchmen* and *Indians*, about three Years since, march'd from *Canada* to *Mississippi* to exterminate the *Chickasaw Indians*: They, as well as the Forces of *Mississippi* who joined them, were shamefully defeated by the brave *Indians*, and most of them slain. The *French* Settlements on *Canada* River are on the Back of all the *British* Plantations, on the Continent of *North-America* and *Florida* held by *Spain*.

The late King of *France* sent Forces to take Possession of the Parts on and about *Mississippi* River, and People to inhabit and settle there. This River is the most considerable in *North-America*, having a longer Course and greater Stream than that of *Canada*. In the Beginning this Colony advanc'd but slowly, which was attributed to the Difficulties they were under of procuring Subsistence, and frequent Wars with several Nations of *Indians*: Most of these have been subdued, or brought into the *French* Interest by Presents and Treaties; the *Chickasaws* still continue undaunted by the War, to the great Detriment and Annoyance of their Enemies the *French*, and keep Possession of a large Tract of Land between the upper and lower Settlements of their Adversaries, as *Canada* River encloses the *British* Colonies on the North, the *Mississippi* bounds them and *Florida* on the South-West, whereby the *French* surround them on all Sides except towards the Sea. In late Years, this Country has prospered, and the Inhabitants are encreas'd and enrich'd to such a Degree, that a Town call'd *New Orleance* contains about Twelve Hundred new-erected Brick Houses, and Forts have been built in several Places. The Planters have great Stocks of Cattle, Horses, Hogs, &c. They make Tar, Pitch, and Turpentine; raise Tobacco, Rice, Wheat, and other Sorts of Grain; have Flower-Mills and Saw-Mills, by which, if they remain unmolested, they will be enabled plentifully to supply their Sugar-Islands with Horses, Timber, Staves, and Provisions: In some Parts of this County, are found Lead-Mines very near the Surface; consequently, the Ore is taken out with little Trouble, and small Expence. By Traffic with the *Indians*, they procure Beaver, Fur, and Deer Skins, which, with the Hides of their Cattle, are sent to *France*. The *French*, by an inland Trade with the *Spaniards* from *Mississippi*, have received annually great Sums of Money, from the Time our King declared War against *Spain*; and by Sea, they have carried on a beneficial Commerce to several *Spanish* Sea-ports in *America*, and to the *French* Sugar-Islands.

I doubt not but the Success of his Majesty's Arms will afford frequent Opportunities of continuing the Subject on which this Letter is writ, *viz.* the Enlargement of the *British* Empire in *America*, and its Consequences, the Increase of Trade and Navigation, and enriching the People of *Great-Britain*.

*I am, Sir,*

*Your most humble Servant,*

*SIR,*

I Recommend to your Animadverſion and due Correction, a Pamphlet lately publiſh'd, intitled, *The Advantages of the* HANOVER *Succeſſion and* ENGLISH *Ingratitude*, &c. To paſs over the Blunder in the Title Page, if there ever was a ſcurrilous Libel publiſh'd upon the People of theſe Three Kingdoms, this is it. The Author not only accuſes us of Ingratitude, but of Stupidity, and every Thing that is bad; and he not only juſtifies all our foreign but all our domeſtic unpopular Meaſures for Thirty Years paſt; particularly, the *South Sea Scheme*, the *Exciſe Scheme*, the *Convention with* SPAIN, &c. Surely ſuch a Pamphlet cannot paſs unobſerved by a Journal that bears the Name of *Old England*.

## IRELAND.

*Dublin, Sept.* 17. The Five Companies of the Royal Scotch, and Colonel Batterau's Regiment of Foot, now on Dublin Duty, and the Right Hon the Lord Viſcount Moleſworth's Regiment (the Royal Iriſh Dragoons) are ordered, we hear, to hold themſelves in Readineſs to embark at an Hour's Warning.

*Extract of a private Letter from Kinſale, dated the 10th of September*, 1745.

'Laſt Night the Ship appointed to carry away ſome 'French Priſoners to France, ſailed away with 250 on 'board; and when ſhe got below our Fort, 30 French 'Gentlemen came well armed from the Shore in two 'Boats, boarded her, and forced their Paſſage, tho' they 'had their Liberty on Parole; and were very much in-'clined to throw the Commiſſary into the Sea.

There will ſpeedily be rais'd in this Kingdom ſeveral independent Regiments of Horſe and Foot, which will be as well trained and diſciplined as the Regular Troops.

Laſt Saturday above 3000 Muſquets came by the Neptune, Capt. Whittle, from Cheſter, for the Uſe of the Militia of this Kingdom; and many Thouſand more are hourly expected.

Laſt Sunday the Rev. Dr. George Marlay was conſecrated Biſhop of Dromore at St. Bridget's Church, by his Grace the Lord Primate, aſſiſted by the Right Rev. the Lord Biſhops of Derry, Down, and Connor.

## LONDON.

They write from Berlin, that his Pruſſian Majeſty, having been inform'd of the Reports ſpread, as if he was in a ſecret Treaty with the Queen of Hungary, has thereupon given Orders to his Miniſters at foreign Courts to declare, that the Report is falſe; and that he is reſolved not to make any Peace, but in Conjunction with his Allies.

The combined Army upon the Rhine conſiſts of 65,000 Men, of which 40,000 are Regular Troops; the Prince of Conti's Army, notwithſtanding his Reinforcement, does not exceed the laſt mentioned Number; and there is Reaſon to believe that he will ſpeedily retire behind the Queich, if not into Alſace.

Some Letters from Paris ſay, that 4 Men of War, and 30 Tranſports, are ready at Dunkirk to ſail; and that the Iriſh Regiments, and ſome other Troops, are marching thither to embark. The Fleet for America ſailed from Rochelle on the 8th Inſt. N. S. eſcorted by a Squadron of ſix Men of War, commanded by one Commodore Macklin, an Iriſhman.

Some private Letters from Amſterdam, mention the taking a Ship from thence to Curacao, by an Engliſh Privateer; and inſinuate, that they are exceedingly uneaſy at theſe Captures, which, by Degrees, will render the Trade of that Iſland very precarious.

We learn by ſeveral private Letters from Holland and Flanders, that 6000 Men have been ordered from the Army of the Count de Saxe to Dunkirk; where great Preparations are actually making for their immediate Embarkation.

His Poliſh Majeſty being informed that the Officers and Soldiers in their ſeveral Camps on the Frontiers had been put to great Expences by their ſudden and frequent Marches, ordered a conſiderable Sum of Money to be diſtributed at the Head of every Battalion.

There are ſome private Letters from Ratiſbon, which ſay, that there has been a very briſk Affair in Bohemia, in which the Pruſſians have loſt 700 Men, and were retired with ſome Precipitation into Sileſia. Theſe Letters fix the Time to the 17th of September, and the Place of Action not far from Neuſtadt.

*Whitehall, Sept.* 21. The Rebels left Perth the 11th, and marched that Day to Dumblain, twenty Miles; the next Day they marched only two Miles to Down; and on Friday the 13th, they paſſed the Forth at the Fords of Frews, five Miles above Stirling: They then ſeemed to direct their March towards Glaſgow; but on the 14th, in the Morning, they turned Eaſtward, and marched by Falkirk, towards Edinburgh; and when the Letters of the 16th came away, they were within a few Miles of that City.

On the 16th, in the Afternoon, Brigadier Fowkes marched to Preſtonpans, ſix Miles Eaſt of Edinburgh, with two Regiments of Dragoons, in order to join Sir John Cope, who was juſt arrived from Aberdeen, where he had embarked, and was then making a Diſpoſition to land the Troops under his Command at Dunbar, 18 Miles Eaſt of Edinburgh, the Wind not being then fair to carry the Tranſports up to Leith.

By Letters of the 18th, the Rebels had taken Poſſeſſion of the Town, and proclaimed the Pretender there on the 17th.

General Gueſt, who commanded at Edinburgh, had retired into the Caſtle, where the Public Offices and the Inhabitants had ſecured their moſt valuable Effects; and General Cope being joined by the two Regiments of Dragoons, was on his March the 18th towards Edinburgh.

*Whitehall, Sept.* 24. By an Expreſs that arrived this Morning, we are informed, that Sir John Cope, and the Troops under his Command, were attack'd by the Rebels on the 21ſt Inſt. at Day-break, at Preſton, near Seaton, ſeven Miles from Edinburgh; that the King's Troops were defeated, and Sir John Cope, with about 450 Dragoons, had retired to Lauder; Brigadier Fowkes and Col. Laſcelles had got to Dunbar; but as yet we have no Accounts of the Particulars of this Action, nor of the Loſs on either Side. The Earls of Loudoun and Home, and ſome of the Gentlemen Voluntiers, were at Lauder with Sir John Cope.

Laſt Monday were landed at Graveſend, Grays, and Blackwall, from Flanders, the three Battalions belonging to his Majeſty's Regiments of Foot-Guards, together with the ſeven Regiments of Foot commanded by Majors-General Pulteney, Howard, Bragg, and Johnſon, Brigadiers-General Douglas and Cholmondeley, and Colonel Sowle.

*Whitehall, Sept.* 26. His Majeſty has been pleaſed to order a ſtrong Body of Troops, conſiſting of ſeveral Battalions of Foot, and ſome Squadrons of Horſe and Dragoons, to march directly to Scotland, under the Command of Field Marſhal Wade.

Orders have at the ſame time been ſent to his Royal Highneſs the Duke of Cumberland, to hold in Readineſs a conſiderable Body of Britiſh Forces, to be embarked, and ſent over hither on the firſt Notice.

Part of the Stern-Work of a Ship is come aſhore near Walmer-Caſtle, with the following Words on it; viz. N. SIGIO. D'ROSAR.

Laſt Tueſday died in Wiltſhire, after a ſhort Illneſs, Sir Robert Weſley, Knt. and Alderman of Queenhithe Ward, and late Lord Mayor of this City.

Tueſday Morning a great Number of Cannon, and Carriages laden with Ammunition, were drawn out of the Tower by 120 Horſes, in order to proceed to the North with all Expedition.

The Prince of Orange, Adams, from New England for London, with Maſts, is taken, and carried into Breſt.

A Schooner from Holland for New England was taken by a French Privateer, and is ſince retaken by his Majeſty's Sloop the Hawk, and is ſent into Yarmouth.

'Tis aſſur'd that in three Weeks Time a Body of 20000 Men will be aſſembled in the North.

Laſt Tueſday upwards of one Hundred Men enter'd into the Duke of Bedford's Service; and his Grace ſet out on Wedneſday Morning for his Seat at Wooburn-Abbey in Bedfordſhire, in order to raiſe the Poſſe Comitatus.

The Right Hon. the Lord Gore is gone to his Seat in Staffordſhire. and his Grace the Duke of Devonſhire to his Seat in Derbyſhire, in order alſo to raiſe Men in Defence of his Majeſty's Perſon and Government.

They write from Newcaſtle of the 22d Inſtant, that every Thing was in great Confuſion there, on Account of the ill Succeſs of Sir John Cope with the Rebels; that they had Orders for raiſing the Militia with the utmoſt Expedition; and as they had already 3000 Men who were willing to ſtand by the Town, and four Companies of Soldiers, and expected to be joined by 1500 Dutch Troops which were landed in Burlington-Bay, and were in full March for that Place, they did not doubt but to be able to make ſome Stand againſt the Rebels, ſhould they direct their March that Way. The Gates not cloſed up are well guarded, and all other Precautions taken to avoid being ſurpriz'd.

A Cartel Ship is arriv'd at Dartmouth with exchang'd Priſoners from St Malo's, and brings an Account that ſeveral Privateers were fitting out there; that four of the largeſt were to ſail to Breſt, to join eighteen French Men of War, and a large Number of Tranſports, that were deſigned for ſome Expedition.

The Martha, Gwynn, from Gottenburgh for London, is taken by a French Privateer.

*On the* KING's *Arrival.*

WELCOME, great Monarch! to thy Regal Home,
Thy willing People joy to ſee thee come.
What tho' the *Gaul*'s ſucceſsful in the Field,
The Towns he takes he'll be conſtrain'd to yield;
Tho' the falſe *P—ſſi—n* doth a Victʼry boaſt,
'Twas 'mong Defiles and narrow Paſſes loſt:
Thou, by thy ſteady Counſels and thy Might,
Haſt done more glorious Deeds than they by Fight;
Repugnant Intʼreſts greatly doſt compoſe,
And mark the Chief old *Germany* ſhall chuſe;
Suſtain'd by thee, *Lorrain*'s heroic Line,
Shall cruſh its Foes, and oʼer the Nations ſhine:
By th' active Genius of its Houſe inſpir'd,
By thy Adoption, and thy Conduct firʼd,
On Eagle Wings to mighty Deeds ſhall ſoar,
The Empire free, the *Netherlands* reſtore,
Beyond the *Somme* to *Louis Quinze* give Chace,
Contract his Bounds, and limit *There* his Space;
While the proud *P—ſſi—n*, with invidious Spleen,
Forgoes his ſtoll'n Acqueſts to guard *B—lin:*
Both view their Ruin in the Work divine,
And hate it deadly as the Gloryʼs Thine.
Proud *Satan* thus, when he'd have *Gabriel* fought,*
Repin'd to ſee his *Mene Tekel* wrote,
Retir'd and murmur'd at the mounted Scale,
And curſt the Power that made his Projects fail.

*Copy of a Letter from Newcaſtle, Sept.* 22.

'It is with inexpreſſible Concern, Sir, that I muſt ac-'quaint you we have received this Morning the News of 'Sir John Cope's Defeat, by an Expreſs. The Two Re-'giments of Dragoons, are reported not to have behav'd 'like Heroes, but the Foot form'd into a ſquare Batta-'lion, and fought it out gallantly. Sir John Cope him-'ſelf made his Eſcape in a Boat from Preſtonpans, the 'ſmall Remains of his Army are got ſafe into Berwick. 'The Action happened Yeſterday, not far from Hadding-'ton.

'We are here in great Confuſion, Numbers of People 'are at Work on our Walls, for the Protection of ſuch as 'ſtay in the Town; Carts and Carriages crowding the 'Streets, to carry off the Effects of thoſe who think it 'ſafer to remove. Our Gates are moſt of them wall'd up, 'and ſome Canon planted: We are very indifferently 'provided for Defence, having only eight Companies of 'new-rais'd Men. Some Thouſands indeed have ſigned 'the Aſſociation, and would venture their Lives for their 'King and Country; but the Miſchief is, we have not 'Arms for 500. This is all with reſpect to public Affairs 'worth writing. God defend us from a Popiſh Govern-'ment, and ſend that my next may bring you better 'News.

It is ſaid, that of his Majeſty's Forces there were kill'd Col. Gardner, (who was ſtripp'd,) Major Bowles, Capt. Stewart, Capt. Pegut, Capt. Pointz, and Capt. Hollwell; Col. Wright and Capt. Leſlie, mortally wounded; about 300 private Men kill'd, 450 wounded, 500 taken Priſoners, and about 450 Foot were got to Berwick: Of the Rebels, the Duke of Perth and about 50 Men were kill'd, and General Macdonald, who commanded them, dangerouſly wounded; but no other Particulars on their Side are known.

Laſt Saturday Evening the Purſer of the Stafford, Capt. Baker, from China, arrived at the India-Houſe, with the agreeable News that the ſaid Ship, with the Montague, Freeman, from Mocha; the Winchelſea, Baron, the Wincheſter, Sampſon, the Prince William, Webber, the Duke of Dorſet, Fognal, from Coaſt and Bay; the St. George, Robinſon, the Beaufort, Thomas Stevens, the Godolphin, John Stevens, and the Dorrington, Crabb, from Bedgall; the Lapwing, Kirwin, from Bengal and Bencoolen; the Ceſar, Court, from Bencoolen: the York, Laſcelles, from Madraſs and China; and the King William, Phillips, from Bengall, arrived at Galway in Ireland the 16th Inſtant. They left St. Helena the 10th of July, and ſailed from thence without Convoy. The Queen Caroline, for Bencoolen, arrived at St. Helena the 3d of July.

The King's-Weſton, Harriſon, from Antigua for Briſtol, retaken by the Cruizer and Prince Charles Privateers, arrived at Pembroke the 15th Inſtant.

Laſt Saturday Morning Count Maurice of Naſſau, Commander in Chief of the Dutch Forces, arrived here from Holland.

The ſame Day Mr. Brown, and ſeveral other Maſons and Bricklayers, who had Warrants from his Grace the Duke of Montague, Maſter of the Ordnance, ſet out for Cape Breton, in order to fortify the Fort of Louiſbourg.

The Beginning of this Week died, aged Eighty, at her Lodgings at Somerſet-Houſe, Mrs. Jane Ireland: She was Chief Laundreſs to King William and Queen Mary.

The following *horrid Anathema*, we hope, will be of ſome Uſe and Service to the Publick at this Time (when Methods are trying, contrary to the wholſome Laws and mild Eſtabliſhment of this Country, to ſet upon the Throne a Popiſh and Arbitrary Pretender, under the wicked Inſinuations of redreſſing Grievances, &c) in order to ſhew the *Meekneſs* and *Chriſtian Diſpoſition* of *Rome*'s HOLY CHURCH, as 'tis call'd. It was printed at London in the Year 1681.

May the holy and wonderful Company of Martyrs and Confeſſors, who by their holy Works are found pleaſing to God Almighty, curſe him or them. May the holy Choir of the holy Virgins, who for the Honour of Chriſt have deſpiſed the Things of the World, curſe him or them. May all the Saints, who from the Beginning of the World to everlaſting Ages are found to be the Beloved of God, curſe him or them. May the Heavens and Earth, and all the holy Things remaining therein, curſe him or them. May he or they be curſed, wherever he or they be, whether in their Houſe or in their Field, or in the Highway, or in the Path, or in the Wood, or in the Water, or in the Church. May he or they be curſed in Living, in Dying, in Eating, in Drinking, in being Hungry, in being Thirſty, in Faſting, in Sleeping, in Slumbering, in Waking, in Walking, in Standing, in Sitting, in Lying, in Working, in Reſting, in Piſſing, in Shitting, and in Blood-letting. May he or they be curſed in all their Faculties of their Body. May he or they be curſed inwardly and outwardly. May he or they be curſed in the Hair of his or their Head. *The Sixteenth Edition of*

ONANIA: Or, The Heinous Sin of Self-Pollution, and all its frightful Conſequences (in both Sexes) conſidered, with Spiritual and Phiſical Advice to thoſe who have already injured themſelves by this abominable Practice.

As alſo the SIXTH EDITION of the SUPPLEMENT to it, both of them Revis'd and Enlarged, and now printed together in One Volume.

And as the ſeveral Paſſages in the former Impreſſions, that have been charged with being obſcure and ambiguous, are in theſe clear'd up and explained, there will be no more Alterations or Additions made to them.

Theſe Editions contain ſome further and ſurprizing Inſtances of the Miſchiefs by that filthy, ſinful Commerce with ones ſelf, which is ſo notoriouſly practiſed, as well by the Adult as Youth, Women as Men, Married as Single, to the weakning their Generative Faculties, and hindering Procreation, as their Letters of Complaint to the Author herein inſerted, ſhew.

And, amongſt others, a curious Letter from a Lady, with his Anſwer to it, concerning the Uſe and Abuſe of the Marriage Bed, together with divers Caſuiſtical and other Letters from both Sexes, of ſome ſecret unnatural Effeminacies, neceſſary to be known both by the married and ſingle of each Sex. To which is added,

A Curious PIECE tranſlated out of the Latin, from L. S. SCHMEDIER, as it is inſerted in the Acta Lipſienſia; concerning the Return of the Seed into the Maſs of Blood; well worth the Peruſal of Phyſicians, Surgeons, Anatomiſts, and all others of Art and Curioſity.

As alſo Dr. QUINCY's Tranſlation of Dr. CARR's remarkable Anſwer to a Letter ſent by a Divine, concerning two Nuns in Rome, reported to have changed their Sex.

Likewiſe Dr. DRAKE's and ſeveral other Phyſicians Opinions of Hermaphrodites, and Women brought to a Reſemblance of them, by the Practice of Self-Pollution, as was the Caſe of a young Lady of 18, whoſe well-wrote Letter to the Author, deſcribing and lamenting her Condition, is (in order to deter others) inſerted

A very grave and learned Divine and Phyſician having peruſed this Diſcourſe, before it went to the Preſs, returned it with his Opinion of it in theſe Words

'This little Book ought to be read by all Sorts of People, 'of both Sexes, of what Age, Degree, Profeſſion, or Condition 'ſoever, guilty or not guilty of the Sin declaimed againſt in it.'

*The True Cordial* QUINTESSENCE *of* VIPERS, *the moſt Noble and Grand Preparation in the whole* Materia Medica, *for the real, ſubſtantial Cure of* Impotence *in Men, and* Barrenneſs *in Women; and is vaſtly preferable to* Viper Wine, *or any other Preparation of* Vipers *whatever, as being replete with the full and whole Virtues of them.*

A FEW Drops of it only, gives ſuch a generous Warmth, and ſo exceedingly delights the Vital and Animal Spirits, Senſes, and Nerves, as ſoon to ſhew what it will do, upon a little Continuance of it; for it not only promotes, and prompts to a Deſire, but alſo furniſhes proper Matter, for the Support and Eſtabliſhment of a true laſting Inclination and Power.

By this Means it anſwers the End as well of Food as Phyſick; nor is there any thing in Nature beſides, that can in that Reſpect come up to it conſidering that it univerſally nouriſhes and reſtores in all the Declenſions of Deſire and Vigour, without the leaſt forcing the Veſſels, or ſtimulating the Parts, as moſt other Medicines for theſe Purpoſes do: And tho' it be a MAXIM in Phyſick, that SINE CERERE & BACCHO FRIGET VENUS, that is in itſelf is ſo ſufficiently nutritious as to want no Aſſiſtance that Way; not but it muſt be allowed, that good Eating and Drinking with it, cannot but in ſome Degree, at leaſt as an Auxiliary contribute to its Efficacy.

Nor does it only furniſh Matter and create Deſire, but alſo true Power (as it braces up and corroborates the Teſtes) and gives an elaſtick Springineſs to the Muſculi Erectores Penis in Men, and corrects, cleanſes, and comforts the Uterus, or Womb in Women, the Lankneſs and Laxity of the former, and the Foulneſs, Coldneſs, or Obſtruction of the latter, being more the Cauſe of Impotency or Infertility, in the one Sex, and Indifferency or Sterility in the other than any Thing elſe beſides; and that it is Balſamick, and a great Reſtorative, is confirmed by long Experience, and we have many Inſtances in Phyſical Writings, of Perſons arriving to a healthful old Age, as well as recover'd from deplorable Decays and Weakneſſes, by a continued Uſe of the common *Preparations of Vipers*, which this Quinteſſence, by being of vaſtly more Efficacy, brings about in a Quarter of the Time, and with the Tenth Part of the Quantity.

Thoſe who but once try it, will ſo pleaſantly experience it nutritive quickening Properties, in exhilerating the Heart reviving the Spirits, comforting the Vitals, circulating the Juice, and recreating and renovating, as it were the whole Man, that they will never be without it; for it is ſuch a preſent Help, in Time of Need, as that on the taking then but a Doſe or two more of it than ordinary, it will ſo inſtantaneouſly animate the dull inactive Spirits, and rouze up and actuate the ſluggiſh enfeebled Faculties, in both Sexes, as to excite and capacitate where it could hardly be expected and at the ſame Time ſeldom fails to render that conjugal Intercourſe Prolifick. Price Half a Guinea the Bottle.

Mr. WELL, Goldſmith, who us'd to ſell theſe Bottles, being lately dead, it is now Sold only by his Son-in-Law, Mr. JOHNSON, Baker, at the Seven Stars in Vere Street, Clare-Market, ſeal'd up, with Directions (for any Wo'lenger) upon aſking for only a Bottle of Quinteſſence.

## *ANTI-SIPHYLICON*

THE only ſure and moſt infallible CURE in the Univerſe for the *Venereal Diſeaſe* from the ſlighteſt Infection to the moſt extreme and deplorable Degree of it, even when the Blood and Juices are thoroughly contaminated with its malignant *Viras*, and the very Bones are affected with it.

Firſt Inſections, call'd Claps, with all their attendant Symptoms, tho' ever ſo fevere, are entirely carried off by it in a few Days, and ſo effectually to prevent the Blood and Juices from being tainted with any remaining Relicks, on one Hand, or a ſeminal Gleet, or Weakneſs, to happen on the other.

And the moſt inveterate Degree of the *French Illneſs*, attended with nocturnal Pains, univerſal Breakings-out, and all other the moſt exaſperated Symptoms, are ſoon overcome by it, and effectually and much more ſafely cured than by Salivation, Inunction, or any other Method whatever, and in a ſhort and pleaſant a Manner, without imparting the leaſt Diſguſt, or occaſioning any Inconvenience, as loudly to beſpeak it the only appoint Remedy, or true *Venereal Antidote* in the World, and this ſome Thouſands have, to their great Joy, experienced.

It is pleaſant to take, occaſions no Sickneſs or Diſorder, nor requires Confinement, but may be taken, and the Cure be accompliſhed, without the Knowledge of the neareſt Friend.

Thoſe who ſuſpect they have received an Injury may, by only a Doſe or two of it, be perfectly freed from all Apprehenſions; for it ſuffers no lurking Venom to lie hid in the Body, but wholly extirpates it, Root and Branch, in a gentle, eaſy, and moſt effectual Manner.

All Such, likewiſe, as doubt they have ſome remaining Relicks of former Injuries, may, by a few Doſes of it, entirely free themſelves from all Suſpicions of that Kind; for it admits of no Foulneſs, Corruption, or Putrefaction whatever, to remain in the Fluids, or to adhere to the Solids; and, on that Account, in all Scorbutick, Scrophulous, and even Leprous Eruptions, or Foulneſſes of the Skin, or glandulous Swellings, and Impurities of the Juices, it does more by one Dole than any other Medicine yet known, can by ten.

The Price of this moſt noble *Anti-Siphylicon* is but ſix Shillings a Pot, which, conſidering its extraordinary Efficacy, one Pot only being ſufficient, in moſt Caſes, to accompliſh the Cure, is not a tenth Part of its Value; and is appointed by the Author to be had only at Mr. Radford's Toy-ſhop, at the Roſe and Crown, againſt St. Clement's Churchyard, in the Strand, ready ſealed up, with a Book of Inſtructions, by the Peruſal of which all Perſons who were ever affected with any Degree of the *Venereal Diſeaſe* may perfectly underſtand their own Conditions, and certainly know when, and when not, the *Venereal Poiſon* is entirely rooted out of their Bodies. Note, *Ask only for a Six Shilling Pot for the Scurvy.*

*Concerning Gleets and Seminal Weakneſſes* of all Kinds.

ALL judicious Phyſicians and Surgeons allow, *that nothing is more difficult to cure than Stubborn Gleets and Seminal Weakneſſes whether occaſion'd by too ſevere purging for Venereal Injuries, violent Strains, Palſies, &c. or any other Cauſe whatever; and that they are dangerous in their Conſequences, as well as difficult to cure, in as certain time they exceedingly weaken the Generative Faculties, infeeble the whole Nervous Syſtem, often bring on Hectick Heats, a Tabes Dorſalis, or Conſumption of the Back, or an Atrophy or Nervous Conſumption*, which frequently terminate in Death itſelf.

All ſuch therefore who have the Misfortune to be troubled with Old ſtubborn Gleets, Seminal Effluxions, Involuntary Emiſſions, exceſſive Nocturnal Pollutions, or any Weakneſs of the Kidneys, Ureters, or Bladder, the Diabetis, Incontinency of Urine, or Difficulty of holding their Water, would doubtleſs be glad to meet with a certain, ſafe and ſpeedy Cure, which they muſt aſſuredly may, by the taking only a ſmall Quantity of a tranſcendent Ballamick Reſtrictive Electuary, now publiſhed for a general Good, after having for many Years in private Practice been experienced never once to fail perfectly curing the moſt ſtubborn Gleets known, in a few Days, without Difficulty or Trouble; as alſo all other Weakneſſes of the Back, Reins, Seminal Veſſels and Urinary Paſſages, which it almoſt inſtantly cures, bringing to rights and reſtoring all thoſe Parts and Paſſages to their natural Tone and priſtine Vigour, in a very extraordinary Manner, and by taking a few Doſes of it only.

This tranſcendent Ballamick Reſtrictive Electuary is neither diſagreeable to take, nor occaſions the leaſt Diſorder, but is a wonderful Reſtorative in all Weakneſs and Decay of Conſtitution of any Kind, and particularly ſtrengthens the Back, Reins, Seminal and Urinary Veſſels, to and in a ſurpriſe Degree, inſomuch that in any Debility of them, one Doſe of it does more than ten of any other Remedy yet found out; and all Perſons troubled with Gleets or Seminal Weakneſſes of any Sort, or Weakneſſes of the Urinary Veſſels, who take it, will in three Days time find it ſo very eſſential, that they will be moſt agreeably ſurpriſed at it.

When a Medicine will infallibly accompliſh ſuch a ſafe, ſpeedy and perfect Cure of ſuch difficult Maladies, as Gleets and Seminal Weakneſſes are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been try'd in vain, too much cannot be ſaid in Praiſe of it, and this all who ever took it for any of the above-mention'd Purpoſes, have readily declared.

The Price is but 6s. a Pot, altho' for its abſolute Efficacy, one Pot alone being ſufficient in moſt Caſes to accompliſh a Cure, worth ten times as much, and by the Author's ſpecial Appointment, is to be had only at Mr. Radford's Toy-ſhop at the Roſe and Crown againſt St. Clement's Church Yard in the Strand, ready ſealed up, with a Book of Inſtructions, which whomſoever carefully reads will be complete Maſter of his own Caſe, and perfectly know, when the Gleet or Weakneſs he is afflicted with ſucceeds a Venereal Injury, whether all the Malignity of the Foul Diſeaſe is entirely extirpated or not.

Note, Ask only for a 6s. Pot of Ballamick Electuary.

All which Symptoms at their ſharpeſt Paroxyſms, theſe ſomuch eſteem'd and moſt ſovereign Drops, (which are Chymically prepar'd from the moſt valuable Specifics in the Mineral, Vegetable, and Animal Kingdoms and exalted to the higheſt Degree of Perfection poſſible) inſtantly quell and at the ſame time annihilate their real Cauſe, directly bringing the Stomach into right Order, creating a good Appetite, reſtoring the Digeſtion, occaſioning laudable Chyle and, of courſe, good Blood, Plenty of calm, free and cheerful Spirits, a regular Circulation of all the Fluids, and Strength of Nerves ſo that both Cauſe and Effects of Melancholy and Vapours, are thoroughly removed by them, almoſt on the Spot, as the many Thouſands of both Sexes they have perfectly cured, evince.

Whoever takes them for three Days only, will be ſenſible they are abſolutely to be depended upon for an effectual and laſting Cure, and certain it is, that no Medicine upon Earth can equal them; be careful therefore to have the right Drops, which are to be had only at *Mrs.* Holt's at the Croſs-Keys and Star below the Royal Exchange, in Cornhill, at 3s. 6d. a Bottle, with Directions at large.

It at once ſtrikes at, and abſolutely eradicates the firſt Principle or Cauſe of Conſumptions, whether of the Lungs or of any other Kind, as alſo of Aſthma's or ſhortneſs of Breath, reduces the vicious Ferment of the Blood and Juices, corrects the acrid Salts which erode the Lungs, frees them from all obſtructing Viſcoſities, and does more real Good in one Day than any other Medicine whatever can in Ten.

Dr. R. NELSON's *long-experienced* COMPOUND, *or never-failing Anti-Venereal Electuary, the like of which is not to be met with,*

FOR the true Cure of freſh Venereal Injuries, (and all the lurking Relicks or Remains of old ones) how virulent or obſtinate ſoever they may be: for it immediately puts a Stop to their Progreſs, and entirely and as it were, inſtantly, ferrets out, and carries off all the filthy poiſonous Infection, wears away the various Symptoms, and by Degrees cleanſes off the Running, and heals and ſtrengthens the Parts, ſenſibly and firmly, without the too common Conſequences of leaving either Foulneſs, Gleeting, or Weakneſs behind. This it does in a Way ſo regular and gentle, both by Stool and Urine, and with a Doſe, each Time, ſo ſmall and pleaſant (the Quantity but of a Nutmeg) that the niceſt Perſons are as well ſurprized as delighted with it, and the more, as it agrees with every one's Conſtitution, hinders no Buſineſs, nor gives the leaſt Suſpicion to the neareſt Relation.
